

CECW-EG

**DEPARTMENT OF THE ARMY
U.S. Army Corps of Engineers
Washington, DC 20314-1000**

EM 1110-2-2300

Manual
No. 1110-2-2300

31 July 1994

**Engineering and Design
EARTH AND ROCK-FILL DAMS—GENERAL DESIGN
AND CONSTRUCTION CONSIDERATIONS**

Table of Contents

Subject	Paragraph	Page	Subject	Paragraph	Page
Chapter 1					
Introduction			Partnering Between the Owner and Contractor	4-9	4-3
Purpose	1-1				
Applicability	1-2				
References	1-3				
Overview of Manual	1-4				
			Chapter 5		
			Foundation and Abutment Preparation		
			Preparation	5-1	5-1
			Strengthening the Foundation	5-2	5-2
			Dewatering the Working Area	5-3	5-3
Chapter 2					
General Considerations					
General	2-1		Chapter 6		
Civil Works Project Process	2-2		Seepage Control		
Types of Embankment Dams	2-3		General	6-1	6-1
Basic Requirements	2-4		Embankment	6-2	6-1
Selection of Embankment Type	2-5		Earth Foundations	6-3	6-1
Environmental Conditions	2-6		Rock Foundations	6-4	6-4
			Abutments	6-5	6-5
			Adjacent to Outlet Conduits	6-6	6-5
			Beneath Spillways and Stilling Basins	6-7	6-6
Chapter 3			Seepage Control Against Earthquake Effects	6-8	6-6
Field Investigations and Laboratory Testing					
Geological and Subsurface Explorations and Field Tests	3-1		Chapter 7		
Laboratory Testing	3-2		Embankment Design		
			Embankment Materials	7-1	7-1
			Zoning	7-2	7-1
			Cracking	7-3	7-5
			Filter Design	7-4	7-8
			Consolidation and Excess Porewater Pressures	7-5	7-8
			Embankment Slopes and Berms	7-6	7-8
			Embankment Reinforcement	7-7	7-9
Chapter 4					
General Design Considerations					
Freeboard	4-1				
Top Width	4-2				
Alignment	4-3				
Embankment	4-4				
Abutments	4-5				
Earthquake Effects	4-6				
Coordination Between Design and Construction	4-7				
Value Engineering Proposals	4-8				

Subject	Paragraph	Page	Subject	Paragraph	Page
Compaction Requirements	7-8	7-9	Chapter 10 Instrumentation		
Slope Protection	7-9	7-13	General	10-1	10-1
Chapter 8					
Appurtenant Structures					
Outlet Works	8-1	8-1	Instrumentation Plan and Records	10-2	10-1
Spillway	8-2	8-1	Types of Instrumentation	10-3	10-1
Miscellaneous Considerations	8-3	8-1	Discussion of Devices	10-4	10-1
Chapter 9					
General Construction					
Considerations					
General	9-1	9-1	Measurements of Seepage Quantities	10-5	10-2
Obtaining Quality Construction	9-2	9-1	Automatic Data Acquisition	10-6	10-2
Stage Construction	9-3	9-1			
Stream Diversion	9-4	9-2			
Closure Section	9-5	9-3			
Construction/Design Interface	9-6	9-3			
Visual Observations	9-7	9-3			
Compaction Control	9-8	9-4			
Initial Reservoir Filling	9-9	9-4			
Construction Records and Reports	9-10	9-5	Appendix A References	A-1	
Appendix B					
Filter Design					
Appendix C					
Slope Protection					
Appendix D					
Automatic Data Acquisition					
Systems					
D-1
